

Please Join Us! Public Meeting to Present Recommendations for Route 1/Quantico

Join us for an informational meeting to review final recommendations to improve safety and mobility on US Route 1 in the Quantico area. The study team's focus is on the feasibility and environmental impacts of roadway and intersection improvements between Joplin/Fuller Road and Telegraph Road at Boswell's Corner. This study is being led by the Federal Highway Administration (FHWA) in cooperation with Stafford County, Prince William County and VDOT. We encourage your continued participation to ensure future corridor designs meet the needs of residents, businesses and commuters.
